

DUO
SCHUSCHKLEB – TREKEL

Parallels

June/July 2021

SCHUSCHKLEB and TREKEL studied at different times and with different professors at Burg Giebichenstein in Halle. Both artists are united in their approach to jewellery as a sculpture and in their sensibility for the sensorial qualities of the material.

SARAH SCHUSCHKLEB

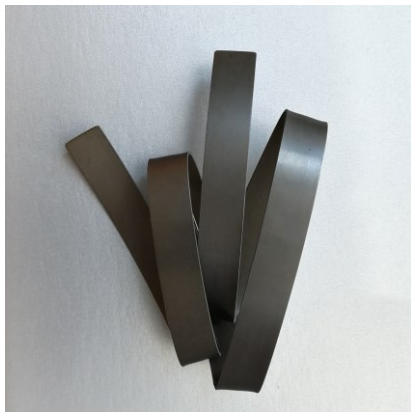

2 pendants: wood, iron, copper, graphite, lacquer / 2021

Hanlanger

*1985 in Ludwigsburg, lives and works in Halle an der Saale.

SILKE TREKEL

2 brooches: titanium

Great Guardian 2021

Nest 2018

Titanium ribbons folded into loops and knots, worn on the body, they become sculptural brooches. The hardness of the material allows very three-dimensional forms, without losing their lightness. They are rather modest in their colouring, living from the graphic character of the folded forms. The intertwined titanium stripes look like the trace of a movement, they associate the impression of a signature, a gesture, a flash.

*1969 in Rostock, lives and works in Halle an der Saale.
